Responsibilities:

1. Support Workers will not support or administer injections. Individuals will be supported to access generic services such as a physician, LIHN, emergency room, etc.
2. The Support Worker is responsible to document on the MARS/Medication/Treatment Sheet and in the log book the day the individual received the injection administered by generic services.

Exception:

Epi Pens are not considered injections under this policy. Support Workers will administer Epi Pens when required as per training for specific support situations.
