

# GUIDELINES FOR USE OF HIGHMARK DISINFECTANT ALL-PURPOSE CLEANER

## **Use:**

HighMark Disinfectant All-Purpose Cleaner is a versatile, concentrated product formulated to disinfect and remove stains, hard water build-up, and soap scum. This product kills bacteria, viruses, fungi, mold and mildew.

## **Dilution & Mixing:**

This is a ready to-use-product. No mixing required.

## **Safety Data Sheet:**

Although this product is not a WHMIS controlled substance, a Safety Data Sheet is provided for additional information.

## **Application:**

Soiled or dirty surfaces must be cleaned prior to disinfection – C (cleaning) comes before D (disinfection). Spray liquid then allow surface to remain wet for 10 minutes then wipe dry.

## **Frequency of Use:**

Apply twice a day, generally once per shift. Frequency may be increased due to staff or client illness or during pandemic/epidemic situations.

## **Precautions:**

Avoid contact with eyes and skin. Wear gloves when using product. Do not spray onto electrical cords. Unplug small appliances before disinfecting surfaces. Do not spray directly onto phones, televisions or small appliances. Some high-touch electronics such as mobile devices, phones, computers and remote controls may require disinfection with rubbing alcohol or alcohol wipes.

**REFER TO SAFETY DATA SHEET FOR MORE INFORMATION.**
