MEMORANDUM

TO: ALL STAFF
DATE: DECEMBER 17, 2020
FROM: SUZANN R. DOHERTY, EXECUTIVE DIRECTOR
SUBJECT: GOGGLES FOR DRIVING USE ONLY

Some workers have expressed concern about their visibility when wearing a face shield while supporting clients in their vehicles. As a result, Avenue II has purchased goggles to help overcome this difficulty and a few pairs are being placed in each home for staff use.

The goggles are chemical splash resistant, vented, fit close to the face, and have an elastic that goes around the back of the head. They can be worn over most prescription-type glasses. After using the goggles, please ensure that they are cleaned, sanitized, and returned to the bag for other staff to use.

These goggles are for driving purposes only and not for in-home or general community use. The wearing of approved face shields along with disposable medical masks while supporting clients in their homes, the community or vehicles is still mandated as PPE. If you are having difficulty with your current face shield, we have several different types available for you to try to improve your visibility. Please contact your Manager directly for further information.

It is hoped that this will increase the opportunities for people we support to not only attend essential appointments in the community but also to partake in safe activities away from their homes such as community light displays.

Thank you for your dedicated and on-going support.

Please sign below when read.
